After you have observed the experienced GSI and have had a chance to chat with them about how section went, please write a few sentences for the following questions. You should read these questions before observing the section.

**1.** Briefly summarize the section that you visited (e.g., what was taught, how it was presented, demos or activities performed).

**2.** Describe the students' reactions (were they engaged, did all students in the groups participate equally?).

**3.** What activities engaged students the most? The least?

**4.** How does your impression of the section compare to that of the more experienced partner (e.g., do you agree on which activities went well)?

**5.** List two or three strengths of the GSI.

**6.** What is one thing you saw that you would like to incorporate into your own sections (list more if you wish)?
