

Mid-semester Evaluation

Astronomy C10

Spring Semester, 2015

GSI: Carina Cheng

1. Do you attend section (please circle one, and be honest!):

Every week

Most of the time

Occasionally

Rarely

2. Has discussion section been useful for you? If yes, provide some specific examples you have found useful (ex: spectra demo, phases of the moon worksheet, lost at sea worksheet, planet characteristics, etc.). If no, explain why not.

3. How would you prefer we focus our time?

Time spent

Lectures given by Carina: less same more

Problem solving/worksheets: less same more

Small (2-3 people) group work: less same more

Medium (4-7 people) group work: less same more

Demos and activities: less same more

Discussion as a class: less same more

Going over homework/exams: less same more

Other?

4. Do you have any ideas or comments for how to improve section? Any major complaints?

5. Do you find the pace of the course to be:

too fast just right too slow

6. Do you find the difficulty of the course to be:

difficult average easy

7. Do you find the pace of section to be:

too fast just right too slow

8. Do you find the difficulty of section to be:

difficult average easy

9. If you were an astronomical object, what would you be? What would Carina be?

10. Please provide any other suggestions, comments, criticisms, witty retorts, jokes, artwork, movie/tv show recommendations, etc. that you would like to share with Carina.
