

Video Recap

Your Name: _____ *Date:* _____

Please watch your recorded section DVD and fill out the following questions. Return this worksheet to one of the Ay300 instructors within one week of receiving your DVD.

1. Sketch your original lesson plan (including the amount of time you budgeted for each section). State your learning objectives.

2. How did the actual timing of your entire section (and its individual components) compare to your expectations? For parts that took longer or shorter, why did this happen? Anything end up getting cut?

3. Watch a section where you are explaining something at the board. Do you see anything unexpected (e.g., excessive use of hand gestures, pacing, etc.)? How is your boardwork? Please give the timestamp.

4. Watch a section where groups are working on a group activity. Are they focused? Do you hear conversations you were hoping to hear? If yes, give an example. If not, what did you hear? Please give the timestamp.

5. List at least one thing you could have done better. What would you have done differently?

6. What aspect of your teaching do you think will improve because of watching yourself on tape?
