Video Tape Recap

Please watch your recorded section DVD and fill out the following questions. Return this worksheet to one of the Ay300 instructors within one week of receiving your DVD.

1. Summarize your learning objectives for this section. Sketch out your original lesson plan (including the amount of time you budgeted for each component).

2. How did the actual timing of your entire section (and its individual components) compare to your expectations? What took longer? Shorter? Anything end up getting cut?

3. Do you think you successfully accomplished your learning objectives? What did you do to assess this?

4. Did you hear conversations in the groups like what you were hoping to hear? If yes, give an example. If not, what did you hear?

5. Look at the groups in your video. Do they appear focused on the task? For instance, were they finishing early? Were they working as a group or individually? Did anyone try to take a nap?

- 6. List three things you felt you did well during section.
